

WebStudy's 'Learning' CMS v9+

Achieve Affordable Academic Excellence While Learning with the Power of E's

Affordable? Academic Excellence? How?

Never before could a CMS offer the educator something **more** than what they could do in the classroom. That's because Version 9.0 is **more** than a CMS. It is a 'Learning' CMS that will:

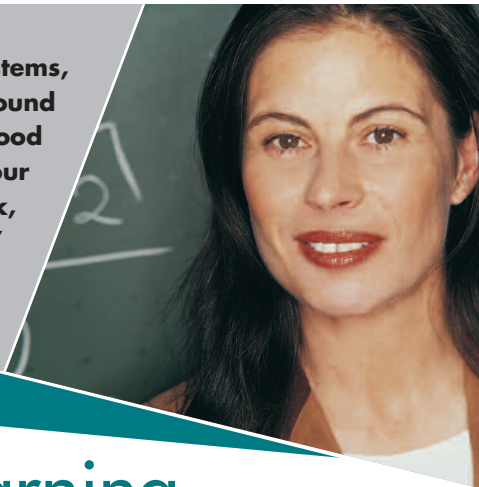

- Enrich student learning, allowing progress at his or her own pace
- Engage instructors to use technology to create dynamic interconnected relationships between course objectives, materials, assessments and a student's performance
- Empower administrators to inspire faculty to use technology to ease the burden of individualized teaching & learning – an opportunity that is not probable in often times crowded diverse classrooms
- Enable all constituents to work as a team to effectively meet learning objectives – taking the anxiety out of learning and accreditation

Join the *R*Evolution

WebStudy[®]
Learning Virtually Anywhere

"From my experience with computer-based training systems, intelligent tutoring systems and educational gaming, we have found that working with an intelligent tutoring system is at least as good as working with a tutor. Anything we can do to get our students to spend more time on the task, the better it is for learning."

- Carol L. Redfield, Ph.D

Individualize Teaching and Learning

Partner with an educational technology provider whose research and development is focused on **learning and functionality**.

WebStudy's 'Learning' CMS v9.0 features groundbreaking "intelligent tutoring" technology that empowers educators to improve individual student performance in ways that cannot be duplicated in a classroom.

With v9.0, you can unleash **Learning with the Power of 'E's'**

ENRICH

*the student
experience*

ENGAGE

*faculty in using
technology*

EMPOWER

*administrators
to make change*

ENABLE

*accrediting
bodies to fulfill
their mission*

ENRICH the Student Experience

- Students progress at their own pace
- Student understanding is enhanced by linking Exam/Quiz performance to additional material
- Students are motivated to achieve

ENGAGE Faculty in Using Technology

- Faculty receive unprecedented 24/7/365 support
- Student assessment is linked to learning objectives
- Current CMS is migrated into something revolutionary

EMPOWER Administrators to Make Change

- Enrollment is increased by providing student-centered learning
- Institutions are recognized for student success
- Affordable path to excellence

ENABLE Accrediting Bodies to Fulfill their Mission

- Put accountability in a new context
- Accredited with confidence
- Successful implementation of SCORM

Focus on Learning and Functionality

WebStudy 'Learning' CMS v9.0 includes both synchronous and asynchronous learning. Plus, WebStudy CMS v9.0 licensing includes both **CourseStream** (streaming video of custom material or telecourse titles from well-known producers) and **CourseLive** (customized content recorded directly from your desktop). Users can combine live audio and video via a webcam with PowerPoint presentations or other content.

About Us

WebStudy, Inc. is a growing provider of learning solutions, created by educators for educators. Our philosophy is to enable faculty to help students, aid administration in launching quality learning programs and demonstrate to accrediting bodies that an institution is committed to producing well-prepared students.
